# STRIPE SYSTEM PARETE T5

design Giampiero Deraì

Sistema a parete costituito da moduli elettrificati, profili in alluminio che alloggiavano lampade T5 normali, e diffusore in PMMA. Disponibile in alluminio anodizzato nei colori alluminio naturale satinato, titanio spazzolato e cromo brillantato e nelle verniciature bianco lucido e nero opaco.

Le lampade sono disponibili nelle due versioni:

HE per massimizzare l'efficienza luminosa e per avere una luminanza costante anche con moduli di differenti potenze.

HO per ottenere il maggior flusso luminoso. Si consiglia l'utilizzo di lampade HO nelle installazioni con moduli della stessa potenza.

Wall mounting system made up of electrified modules, aluminium profiles designed for housing normal T5 lamps, and PMMA diffuser. Available in the following anodized aluminium colours natural satin aluminium, shiny chrome and brushed titanium and in the following painted versions: shiny white and matt black.

The lighting bulbs are available in two versions:

HE to maximize the luminous efficiency and get a constant luminance even by different elements with several lengths and powers.

HO to obtain the maximum luminous flux. The use of HO bulbs is advised for installation of several elements with the same power.
